SHORT QUOTATION NOTICE

TU/11-24/Pur/Qtn/2017-18/3068-A dated: 20.10.2017.

Sealed quotations are invited from reputed manufacturers/authorized dealers/vendors for supply, installation & commissioning etc. of following items required for the DRDO Sponsored Research Project of Dr. S. Baruah, Department of Molecular Biology & Biotechnology, Tezpur University.

Item: Bench Top Flow Cytometer

Specification:

- The required system should be a Bench top flow cytometer (analyzer) with 2 lasers, at least 4 colors & at least 6 parameters. The lasers should be 488nm (blue) & 640 nm (red) and should work simultaneously. All the lasers, their excitation optics & collection optics should be fixed aligned.
- The system in addition, should offer software driven auto alignment & fine alignment features to ensure consistent performance. The system should be able to do automated compensation calculation, single fluorochrome addition and inter-beam compensation.
- The analysis speed should be at least 10,000 events per second or better. The system -apart from offering low, medium & high flow rates, should also offer high sensitive mode, which can result in higher fluorescence signal resolution for dim stained population. Should be able to perform bead based immune assay for protein quantification – to be supported by documentary evidence
- The system should be capable of doing absolute cell counting both with, and without reference beads. The system should accept various kinds of sample input devices like 2ml, 5ml tube. The system should be in a single tube acquisition format & upgradable in future to universal plate and tube loader platform.
- The system software should be capable of establishing baseline settings of system performance and be able to adjust for instrument variability thereby automating instrument setup leading to consistent & reliable results. The system should also offer automatic (time defined) startup & shut down procedures
- The system software should offer support for data acquisition. The system software should also have pre-defined assay menu. The system should also allow analysis of data parallel to sample acquisition.
- Data management system: PC workstation with at least 3.0 Ghz processor, 4GB RAM, 160 GB hard drive, DVD/CD-ROM read/write combo drive, 19" LCD monitor and laser jet printer. Suitable ups should be provided with the system free of cost.
- Performance Certificate of the quoted equipment, at least from one user of any Govt. Research Institute within East, to be submitted as a proof of satisfactory performance. Company must also provide technical assistance in operating the instrument on daily basis.
- The company should preferably have minimum of 4-6 installations of the quoted model in India and established Flowcytometry training centre in Eastern region providing regular training courses on research applications.
